Again it has been demonstrated that President Wilson is the right man in the right place. When a great strike seemed inevitable the President in plain language impressed upon the board of managers the necessity and importance of complying with the recommendations of the mediation board. The managers, being far sighted men, saw that the President had right, justice and the great American public with him and they acquiesced. A hot headed, impetuous, or a weak kneed President would only have made matters worse.

"I have voted generally for the administration measures and am quite sure I served the best interests of the people of my State and the country by so doing."—Representative Bryan, of Washington, Progressive.

RAILROAD EXPECTS PROSPERITY

Few chapters of the country's economic history compare in interest with the growth of our railways both in mileage and mechanical equipment. And the advance is always going on. The Pennsylvania Railroad is about to change its huge 100-pound rails for still larger 120-pound rails. In addition it is ordering tremendous locomotives, locomotives that will pull as much as sixty old-time engines pulled.

Such plans mean only one thing. The Pennsylvania is a business proposition; it is not run for the purpose of speculation. And it knows that business is going to be good, that it will justify these great orders for new equipment. It has learned the precept of Mr. Morgan that "the man who is a bear on America will go broke."

It looks as though real business concerns were not distressed by the outlook. They are getting ready for prosperity—Milwaukee Journal (Independent Republican.)

If Austria goes to war with Serbia, the judgment of this day and assuredly that of history will hold Austria and its abettors guilty of a stupendous crime against civilization. Notwithstanding the demands made on Serbia were as humiliating and arrogant as any that history records, Serbia, proud as its people have shown themselves to be, submitted to all save one of them. It has expressed a willingness to ferret out and punish any of its army officers who have engaged in any propaganda adverse to the interests of Austria and to break up any organizations engaged in that work. It has declined only to permit Austria to appoint its own partisans to act as judges of the suspects, and its declination even on that minor point was not final, since it offered to submit the question of the justness of this particular demand to The Hague. The humility which Serbia has shown is equaled only by the arrogance which Austria has exhibited. Serbia, instead of showing a provocative beligerence, has shown almost a craven eagerness to avoid war. If, despite this cowering attitude on the part of Serbia, Austria forces war on it, the world can only conclude that these demands make merely a pretext which Austria does not wish to have satisfied, and that its motive is vastly different from that is avows.—Dallas (Tex.) News.

Mosquitoes are swarming in the country south of town. The farmers believe they breed in the stream issuing from the septic tank, and think the cases of typhoid fever in the country are probably traceable to this cause. Steps should be taken at once to prevent contamination from this place.

"SAFETY FIRST, SAFETY ALWAYS"

Sunday is preeminently Death Day for automobilists. Long is the register on each Monday of accidents, of injuries inflicted and sustained, far, far too many of them on account of carelessness and want of due precaution and sound judgment on the part of the drivers. Every owner and every chauffeur should know by heart the life saving recommendations prescribed and circulated by the National Council for Industrial Safety:

"SAFETY FIRST, SAFETY ALWAYS, AUTO DRIVERS.

"I. Be considerate.

"II. Go slow: 1. Passing children; 2. Passing vehicles; 3. Approaching crossings; 4. Turning corners.

"III. Stop: 1. At railroad crossings; 2. Behind standing street cars.

"IV. Use chains on slippery pavements.

"V. When in doubt—go slow or stop."

By what magnification of type, by what relief of raised enameled letters, by what brilliance of colors can these rules be impressed upon the mind of a multitude of devil-wagoneers? People that mean well, but are too ready to take chances. If they won't spare their own lives they might at least refrain from taking chances with those of other persons.—Selected.

The Twenty Year Test

"Some twenty years ago I used Chamberlain's Colic, Cholera and Diarrhoea Remedy," writes Geo. W. Brock, publisher of the Enterprise, Aberdeen, Md. "I discovered that it was a quick and safe cure for diarrhoea. During all these years I have used it and recommended it many times, and it has never disappointed anyone." For sale by all dealers.

—MAKE DATES EARLY—

To those wishing anything sold: You no doubt know that I sell all kinds of personal as well as all kinds of real estate, anywhere at any time. You no doubt know that I do more advertising myself and for my patrons than all the competitors I have in Southwest Missouri. You no doubt know that I have led the list in amount of sales since April 1. You no doubt know that I sell more real estate at auction than all auctioneers in old Missouri. You ought to know that a man capable of selling \$15,000 farms can sell registered stock of all kinds. I have not only sold all kinds of Registered stock, but have owned Registered Hogs, Sheep, Cattle, Horses and even Goats. Now, I am going to take lead in Southwest Missouri, both in advertising my patrons and delivering the goods. I am going to devote my whole time to my success and to the successful selling of property. I have calls most every day for something. I can and will help you get buyers. I will spend liberally the money you give me to further your cause and mine. I will advertise Southwest Missouri more than any living soul. Watch me!

Now, these few points I respectfully submit. If worthy of your hire, call 136, Sarcxie, Mo., or make date at Carthage Democrat office. I won't feel sore should you employ one of my competitors. They are men of high esteem, high minded and No. 1 auctioneers. I just mean to make them hustle, that's all.

ED HUDSON, Sarcxie, Mo.

P. S. I am the man who sold the Jacob Shue farm at Mt. Vernon for \$14,630.
